

FUNAI THERMAL INKJET INKS

NAME	INK TYPE	CARTRIDGE TYPE	DESCRIPTION	SUBSTRATE	PART NUMBER		
					Print Cartridge	Bulk printhead	Bulk Ink Reservoir
Solvent inks for non porous media							
🔴 5802K	Black dye	Zion	5802K ink formulation not only expands access to CIJ-dominated applications through superior adhesion and rub resistance on various surfaces like metal, steel, glass, PET film, PA film, and BOPP film, but also enhances performance with extended throw distance and rapid drying time.	OPP, PET, PVC, BOPET, Al foil.	5802K42A	N/A	N/A
🔴 5803K	Black dye	Zion	The 5803K Black MEK Solvent Thermal Inkjet Ink formulation not only expands access to CIJ-dominated applications through superior adhesion and rub resistance on various surfaces like metal, steel, glass, PET film, PA film, and BOPP film, but also enhances performance with extended throw distance and fast drying time.	OPP, PET, PVC, BOPET, Al foil.	5803K42A	N/A	N/A
🔴 5901K	Black dye	Zion	The ink delivers exceptional adhesion and rub resistance, rapid drying time, impressive print quality, extended throw distance, high optical density, sharpness, and barcode readability on a variety of semi-porous and non-porous materials. General purpose black solvent ink-ideal for long delay time printing	PET, PVC, BOPET, Al foil.	5901K42A	N/A	N/A
🔴 5901R	Red dye	Zion			5901R42A	N/A	N/A
🔴 5901B	Blue dye	Zion			5901B42A	N/A	N/A
Solvent inks for applications which require alcohol and solvent resistance							
🔴 5720K	Black dye	Zion	The ink delivers rapid absorption, outstanding scratch resistance, and chemical resistance. Additionally, it offers prolonged decap time and high optical density for ensuring top-notch print quality. Suitable for applications which require alcohol resistance.	PVC pipe, Paint coated substrates.	5720K42A	N/A	N/A
🔴 5720R	Red dye	Zion			5720R42A	N/A	N/A
